## SUMMARY

---

I am a burgeoning data analyst, polymath, and innovative thinker who's always searching for the next opportunity to positively contribute to my environment. Open minded, thoughtful, and dedicated I strive to bring out the best in myself and others by encouraging teamwork and cooperation. Using my skills of self discipline, personal data management, analytical processing, and my proficiency in programming languages such as Python, C++ and SQL among others, I strive for excellence in my professional and personal life.
